The Application Process

To start the federal financial aid process, students must complete the Free Application for Federal Student Aid (FAFSA), available at <https://studentaid.gov/h/apply-for-aid/fafsa>. This is the very first step in determining a student's eligibility for federal financial aid. Federal financial aid will be processed for newly admitted students after receiving an admissions acceptance **and** paying the required seat deposit of \$100.

1. Create FSA ID and Password

To expedite the completion of your FAFSA you should first create a FSA ID and Password, which will allow you to electronically sign the FAFSA. (If you do not create a FSA ID, you will need to print, sign, and mail the signature page).

2. Complete the Free Application for Federal Student Aid (FAFSA)

Complete and submit the FAFSA online as soon as possible after October 1st of the previous year you will be attending. **Hackensack Meridian School of Medicine Federal School Code is 042933**. The information you submit will be processed and you will receive a Student Aid Report (SAR) in response. Log in to the FAFSA website to review this information and correct any errors as instructed. **Please submit your FAFSA by April 1st.**

3. Review your Student Aid Report (SAR)

Your Student Aid Report (SAR) is a paper or electronic document that gives you some basic information about your eligibility for federal student aid as well as listing your answers to the FAFSA questions. Your SAR will indicate if you're required to provide HMSOM with any additional information; such as citizenship documentation.

4. Complete a Master Promissory Note & Loan Entrance Counseling

All student loan borrowers at HMSOM are required to complete a Master Promissory Note, and Loan Entrance Counseling. Requirements can be completed by logging into Studentloans.gov using your FSA ID and Password.

HMSOM Office of Student Financial Services (SFS) communicates with students mainly via email. Students are encouraged to monitor their HMSOM email accounts for updates regarding their financial aid. **Students are encouraged to be proactive regarding their financial aid files and their SOMA portal for updates and complete any outstanding items.**

Available Resources for Graduate Students: Scholarships

HMSOM Merit Based Scholarships

- Students apply for merit-based scholarships by submitting a complete application for admission to HMSOM. No separate scholarship application form is required. Applicants to HMSOM are automatically considered for merit-based scholarships at the time of admission. An HMSOM scholarship committee will conduct a review of students and determine the eligibility of students, and the amounts of scholarships, based on assessments of a broad range of factors including MCAT test scores, grade point averages, advanced degrees, financial need, student background (including whether the student is a first generation medical student and/or whether the student is from a group that is Underrepresented in Medicine), research experience, community service, and any personal statements, interviews, or letters of recommendation). Students will be notified in writing by the Admissions Office if they qualify for receipt of a merit-based scholarship. The amount of the scholarships range in size from \$10,000 annually to the full amount of tuition for the academic year. A continuing student's merit-based scholarship will renew automatically in each subsequent academic year if there has been no reported, material change in the student's eligibility. The availability and initial amounts of scholarships may vary based on the size of the applicant pool, admission dates and availability of funding for the scholarships.

HMSOM Need Based Scholarships

- Students apply for need-based scholarships by submitting the Free Application for Federal Student Aid ("FAFSA"). No separate scholarship application is required. Currently, each candidate qualifying for a fee waiver under the [Association of American Medical Colleges \("AAMC"\) Fee Assistance Program \(FAP\)](#) receives a \$25,000 need-based scholarship per academic year. Depending upon funding availability, candidates that have previously received a Pell Grant at another institution receive a \$12,500 need-based scholarship per academic year. The scholarship will renew automatically in each subsequent academic year if the student continues to meet applicable requirements and remains in academic good standing at HMSOM. The availability and amounts of scholarships may vary based on the size of the applicant pool, admission dates and availability of funding for the scholarships.
 - ***Effective calendar year 2022, the AAMC has modified two of its eligibility requirements for the [Fee Assistance Program](#):**
 - Removed the U.S. citizenship and certain visa status eligibility requirements, and will instead require a U.S. address.
 - Removed the requirement for parental financial information for applicants age 26 and over on the day the application is submitted.

Scholarship Renewal Requirements

FAFSA submission is required for Merit & Need Scholarships. Students must meet Satisfactory Academic Progress by the end of the Winter/Spring term. If renewal has been met at the end of the spring semester, your scholarship will automatically roll over to the next academic year. If criteria is not met, notification will be sent by the Office of Student Financial Services and the decision may be appealed. Scholarships can only be applied towards the cost of HMSOM tuition and students must be full-time. Scholarships will not exceed 4 years (8 semesters) of study. If you withdraw or stop attending HMSOM at any time while receiving Institutional Need, or Merit funding may not be guaranteed if readmitted. Students must receive confirmation from the Office of Student Financial Services.

Service Scholarships

- The National Health Service Corps (NHSC) Scholarship.
- The Health Professions Scholarship Program (military scholarships – Army, Navy, Air Force).
 - Provide full tuition, fees, and a monthly stipend for living expenses in exchange for years of service after graduation and/or residency training.

External Scholarship Programs

The HMSOM is providing a hyperlink (below) to medical school and loan repayment resources to aid students in their scholarship efforts. These scholarships are awarded by third-parties, not by HMSOM. The eligibility and amounts of scholarships awarded to students are determined by the third-party, not by HMSOM. Please visit the AAMC website for an extensive list of medical school scholarship and loan repayment programs at https://services.aamc.org/fed_loan_pub/index.cfm. Students should contact the third-party provider of these scholarships in order to obtain additional information about the eligibility criteria, procedures, and requirements for these scholarship programs.

Students may also visit [HMSOM SFS External Scholarships](#) as an additional resource.

The student is responsible for paying the remaining tuition and fees after their VA benefits.

The Cost of Attendance

There are certain expenses that cannot be included in the Cost of Education as determined by Title IV Federal regulations. Specific examples include:

Financial aid is also disbursed in accordance with that same schedule, July, and January each year pending financial aid and registration requirements are met. Students are responsible for ensuring all tuition and mandatory fees are paid by the due date. Students can access account balances and student account information on the SOMA portal at <https://campus.hmhn.org>
